

Chromebook Acceptable Use Policy Agreement

The Davis Kids Klub (DKK) authorizes students to use technology owned and otherwise provided by the Davis Joint Unified School District (District) as necessary for instructional purposes. The use of District technology is a privilege permitted at the discretion of the District and DKK and is subject to the conditions and restrictions set forth in applicable board policies, administrative regulations, and this Chromebook Acceptable Use Policy Agreement. The District reserves the right to suspend access at any time, without notice, for any reason.

The District and DKK expect all students to use technology responsibly to avoid potential problems and liability. The District and DKK may place reasonable restrictions on the sites, material, and/or information that students may access through the system.

Each student who is authorized to use District technology and his/her parent/guardian shall sign this policy agreement as an indication that they have read and understand the agreement.

Definitions

District technology includes, but is not limited to, computers, the District's computer network including servers and wireless computer networking technology (Wi-Fi), the Internet, email, USB drives, wireless access points (routers), tablet computers, smartphones and smart devices, telephones, cellular telephones, personal digital assistants, pagers, MP3 players, wearable technology, any wireless communication device including emergency radios, and/or future technological innovations, whether accessed on or off site or through District-owned or personally owned equipment or devices.

21st Century Learner

Technology is an integral part of our students' lives and futures, and we strive to provide technology rich learning environment for students. Students need to learn and master the technology skills necessary to succeed in the technological 21st century global society. However, inappropriate use of these resources may result in disciplinary action and/or referral to legal authorities. The site administrator, District administrator, and/or systems administrator may limit, suspend, or revoke access to technology if deemed necessary.

Student Obligations and Responsibilities

Students are expected to use District technology safely, responsibly, and for educational purposes only. The student to whose name District technology is issued is responsible for its proper use. Students shall not share their assigned online services account information, passwords, or other information used for identification and authorization purposes, and shall use the system only under the account to which they have been assigned.

Students are prohibited from using District technology for improper purposes, including, but not limited to, use of District technology to:

1. Access, post, display, or otherwise use material that is discriminatory, libelous, defamatory, obscene, sexually explicit, or disruptive
2. Bully, harass, intimidate, or threaten other students, staff, or other individuals ("cyberbullying")
3. Disclose, use, or disseminate personal identification information (such as name, address, telephone number, Social Security number, or other personal information) of another student, staff member, or other person with the intent to threaten, intimidate, harass, or ridicule that person
4. Infringe on copyright, license, trademark, patent, or other intellectual property rights
5. Intentionally disrupt or harm District technology or other District operations (such as destroying District equipment, placing a virus on District computers, adding or removing a computer program without permission from a teacher, a DKK staff person, or other District personnel, changing settings on shared computers)
6. Install unauthorized software
7. Hack into the system to manipulate data of the District or other users
8. Engage in or promote any practice that is unethical or violates any law or board policy, administrative regulation, or District practice

Filtering and Monitoring

As required by the Federal Children's Internet Protection Act (CIPA), content filtering technology is used to restrict access to unacceptable materials on all Internet access provided by the District. The District makes every effort to limit access to objectionable material; however, no web filtering is 100% safe. With internet access, a risk exists that students may access material that may not be of educational value in the school setting. Students who intentionally access, publish, or attempt to access or publish inappropriate or illegal material or Internet sites, may be subject to discipline; which may include the possibility of suspension or expulsion. If a student identifies a security problem, they are required to notify a teacher or administrator at once, and not demonstrate the problem to other users. Students should also never use another individual's account. All use of the system must be under your own account. If a user is identified as a security risk, he or she may be denied access to the information system and face potential disciplinary consequences.

Privacy

Since the use of District technology is intended for educational purposes, students shall not have any expectation of privacy in any use of District technology.

The District reserves the right to monitor and record all use of District technology, including, but not limited to, access to the Internet or social media, communications sent or received from District technology, or other uses. Such monitoring/recording may occur at any time without prior notice for any legal purposes including, but not limited to, record retention and distribution and/or investigation of improper, illegal, or prohibited activity. Students should be aware that, in most instances, their use of District technology (such as web searches and emails) cannot be erased or deleted.

All passwords created for or used on any District technology are the sole property of the District. The creation or use of a password by a student on District technology does not create a reasonable expectation of privacy.

Consequences for Violation

Violations of the law, board policy, or this agreement may result in revocation of a student's access to District technology and/or discipline, up to and including suspension or expulsion. In addition, violations of the law, board policy, or this agreement may be reported to law enforcement agencies as appropriate.

Student Acknowledgment

I have received, read, understand, and agree to abide by this Chromebook Acceptable Use Policy and other applicable laws and District policies and regulations governing the use of District technology. I understand that there is no expectation of privacy when using District technology. I further understand that any violation may result in loss of user privileges, disciplinary action, and/or appropriate legal action.

Disclaimer of Liability

The District makes no guarantees about the quality of services provided and is not responsible for any claims, losses, damages, costs, or other obligations arising from the use of the network or accounts. Any additional charges a user accrues due to the use of the District's network are to be borne by the user. The District also denies any responsibility for the accuracy or quality of the information obtained through user access. The District denies any responsibility for material encountered on a computer network, including the Internet, which may be deemed objectionable to a user (or his/her parents, if a minor) or for any hostile or injurious actions of third parties encountered through a computer network. Any statement accessible on the computer network or the Internet is understood to be the author's individual point of view and not that of the District, its affiliates or employees. Due to the nature of electronic communications and changes in the law, it is also impossible for the District to guarantee confidentiality of email sent and received over any computer network. This Chromebook Acceptable Use Policy Agreement is consistent with District board policy and Administrative Regulation 6163.4.

By signing this agreement I acknowledge that I:

- Understand the rules and regulations of the acceptable use policy mentioned above
- Understand that this document is a *legal and binding* document and that applicable discipline measures will be taken for violations, including denial of access to technology or other remedies applicable under school policy, and/or state and federal law

STUDENT

As a user of a District Chromebook, I hereby agree to comply with the Chromebook Acceptable Use Policy - communicating over the network and working on the computers in a reliable fashion while honoring all relevant laws and restrictions.

Student Name

Date

PARENT/GUARDIAN

(MUST BE SIGNED IF THE APPLICANT IS UNDER 18 YEARS OF AGE)

As the parent or legal guardian of the minor students signing above, I grant permission for my son or daughter _____ to access networked computer services such as electronic mail, data processing, on and the Internet. I understand that some materials on the Internet may be objectionable; but I accept responsibility for guidance of Internet use - setting and conveying standards for my child to follow when selecting, sharing or exploring information and media.
